

Nobody Else Like You

There's nobody else like you
nobody else like you
not my mother, not my father, not my sister, not my brother
nobody else will do
that's why I love you
There's nobody else like you
And no one else will do,
There's nobody else like you

In hard times you've been my friend
You stick by me to the end
when all others cease to be
I look around and you're there with me

Whenever I'm in trouble
Lord, you're there always there
When I feel like dying
Lord, you care, always care
Whenever I call you
Lord, you answer my plea
Hallelu, hallelu, hallelujah
There's nobody, there's nobody else like you

You've got the sweetest name I know
The sweetest name I know
Jesus, Jesus, sent from above
Just to show the father's love
That's why I love you
There's nobody else like you
And no one else will do, there's nobody else like you

Lord, you've really been good to me
I love to say your name Jesus, Jesus, wonderful Jesus
You've been so good to me
That's why I love you
There's nobody else like you
